

Welcome to Wuerzburg

Dear Colleagues,

Voice restoration can be offered by a variety of techniques of phonosurgery. Large anatomical and functional defects up to total laryngeal loss require advanced techniques of reconstructive surgery including microsurgical free tissue transfer and electric laryngeal pacing.

The Wuerzburg Workshop is offered under the auspices of the European Laryngological Society (ELS) and the European Study Group for Functional Laryngology (EGFL). Using modern high definition 3D technology, live surgeries from two operating theaters cover the complete spectrum of phonosurgery. Hands-on training under expert guidance is offered in the skills lab. Basic knowledge as well as diagnostic and therapeutic details are presented and discussed by international experts.

This year's topics focus on overcoming the sequelae of therapy and include

- ▶ functional electric stimulation of the larynx
- ▶ reconstructive measures including use of prefabricated flaps
- ▶ state of the art laryngeal tissue engineering
- ▶ autotransplantation of salivary glands for irradiated patients
- ▶ concepts for the use of Botulinum toxin
- ▶ office based surgery

We are looking forward to welcoming you in Wuerzburg and to experiencing a scientifically and personally enriching meeting.

Univ.-Prof.
Dr. Dr. h. c. Rudolf Hagen

Topics as by Oct. 2014

▶ Introductory lectures:

E. g., indications for surgery, pre- and postoperative diagnostics, postoperative care

▶ Live surgery in 3D HD projection:

Demonstration of different microsurgical approaches in phonosurgery and reconstructive laryngeal surgery

▶ Special lectures and round tables:

Medialization techniques, microflap surgery, laryngeal reinnervation, laryngeal pacemaker, voice rehabilitation, laryngoplasty procedures

▶ Surgical exercises in skills lab:

- Laryngeal microsurgery
- Laryngeal dissection

▶ Electrophysiological exercises (EMG)

Chairman

Univ.-Prof. Dr. Dr. h. c. Rudolf Hagen
Dept. of Otorhinolaryngology, Plastic,
Aesthetic and Reconstructive Head and Neck Surgery,
University Hospital Wuerzburg

Organization

Univ.-Prof. Dr. Norbert Kleinsasser, MHBA
Head: Clinical and Experimental Laryngology
