3rd Würzburg workshop on surgical therapy of erectile dysfunction and Peyronie's disease

Honorably joined by special guest lecturer
Prof. Tobias S. Köhler, Mayo Clinic, MN, USA

25. – 26. March 2019

Scientific guidance:
Assoc. Prof. Dr. Georgios Hatzichristodoulou

Department of Urology and Pediatric Urology
Julius-Maximilians-University of Würzburg
Director: Univ.-Prof. Dr. med. Hubert Kübler

Dear colleagues,

After a successful workshop in 2018, it is now my great pleasure to invite you to the 3rd workshop on surgical therapy of erectile dysfunction and Peyronie's disease, which will take place at the Department of Urology and Pediatric Urology, Julius-Maximilians-University of Würzburg.

Surgical treatment of erectile dysfunction by implantation of a penile prosthesis remains the gold standard treatment in patients with erectile dysfunction not responding to medical therapy.

In Peyronie's disease, surgical therapy still remains the gold standard for correction of the associated penile deviation. Grafting techniques with partial plaque excision or incision are preferred in advanced cases because they can minimize the risk of postoperative penile shortening.

I am very happy and pleased to have Prof. Tobias Köhler from Mayo Clinic, USA with us during the workshop. Prof. Köhler is one of the most successful prosthetic urologists and high-volume implanter in the USA and also leading scientific chairman in various international academic and scientific societies related to sexual medicine. His expertise and experience from more than 18 years in prosthetic urology will be of tremendous enrichment for our attendees.

Our workshop will be an interactive one where you can actively join the operating room and discuss with the surgeons about the specific diseases and surgical techniques. This is a unique opportunity for you as participants to experience live surgeries and learn from high-volume surgeons in the field.

I am looking forward to welcoming you to Würzburg in March 2019!

With kind regards,

Assoc. Prof. Dr. G. Hatzichristodoulou
Senior Physician,
Chief of Andrology Unit

Program

Monday March 25th, 2019:

Venue:

Department of Urology and Pediatric Urology,
Zentrum Operative Medizin, Julius-Maximilians-University
of Würzburg, Oberdürrbacher Str. 6, 97080 Würzburg

8:00 – 8:15 am	Welcome Assoc. Prof. Dr. Hatzichristodoulou
8:15 – 8:30 am	Introduction of surgical cases for live surgeries “penile prosthesis implantation” Assoc. Prof. Dr. Hatzichristodoulou
8:30 am – 3:00 pm	Three live surgeries with interactive participation of attendees „Surgical therapy of erectile dysfunction by implantation of a 3-piece inflatable penile prosthesis” Assoc. Prof. Dr. Hatzichristodoulou, Prof. Dr. Köhler
3:00 – 3:30 pm	Break
3:30 – 4:30 pm	Lecture: Tips and tricks for a successful career in prosthetic urology: lessons learned from over 18 years of professional life in the field Prof. Dr. Köhler Lecture: Building a competence center for prosthetic urology in Germany Assoc. Prof. Dr. Hatzichristodoulou
4:30 pm	End of first workshop day

Tuesday March 26th, 2019:

Venue:

Department of Urology and Pediatric Urology,
Zentrum Operative Medizin, Julius-Maximilians-University
of Würzburg, Oberdürrbacher Str. 6, 97080 Würzburg

8:15 – 8:30 am	Introduction of surgical cases for live surgeries “Surgical correction of penile deviation in Peyronie’s disease” Assoc. Prof. Dr. Hatzichristodoulou
8:30 am – 3:00 pm	Two live surgeries with interactive participation of attendees “Surgical therapy of Peyronie’s disease by partial plaque excision and grafting of tunical defect” Assoc. Prof. Dr. Hatzichristodoulou, Prof. Dr. Köhler
3:00 – 3:30 pm	Break
3:30 – 4:30 pm	Lecture: Strategies to prevent infections during penile prosthesis implantation Prof. Dr. Köhler Lecture: Surgical therapy of Peyronie’s disease: indications and techniques Assoc. Prof. Dr. Hatzichristodoulou Summary and closing remarks Assoc. Prof. Dr. Hatzichristodoulou
4:30 pm	End of workshop
